## IMPORTANT

1. A gas pressure regulator suitable for battery or single unit application must be furnished and installed. Natural gas 6.0" W.C., propane gas 10.0" W.C.
2. An adequate ventilation system is required for commercial cooking equipment. Information may be obtained by writing to the National Fire Protection Association, Batterymarch Park, Quincy, MA 02269. When writing refer to NFPA No. 96.
3. These units are manufactured for installation in accordance with ANSZ223.1a (latest edition), National Fuel Gas Code. Copies may be obtained from the American Gas Association, 1515 Wilson Blvd., Arlington, VA 22209.
4. All models require a 6" (152 mm) clearance at both sides and rear adjacent to combustible construction.
5. For proper flueing a backguard or high shelf must be installed with each unit. Please refer to spec sheet F31537 for specific styles and sizes.
6. This appliance is manufactured for commercial installation only and is not intended for home use.
